- COMMUNICATION
- TEAMWORK
- PROJECT MANAGEMENT

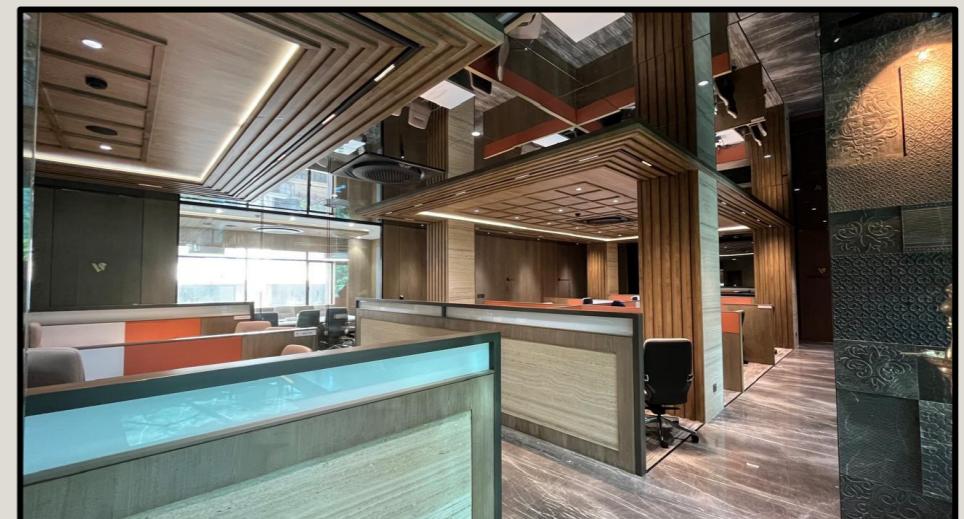

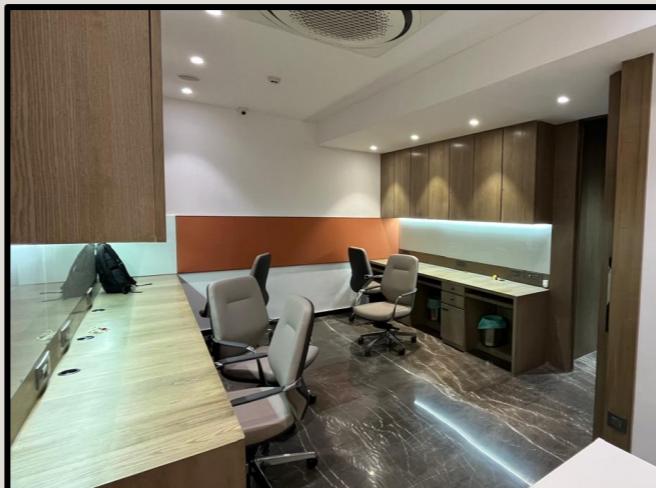

WORKPLACE DESIGN

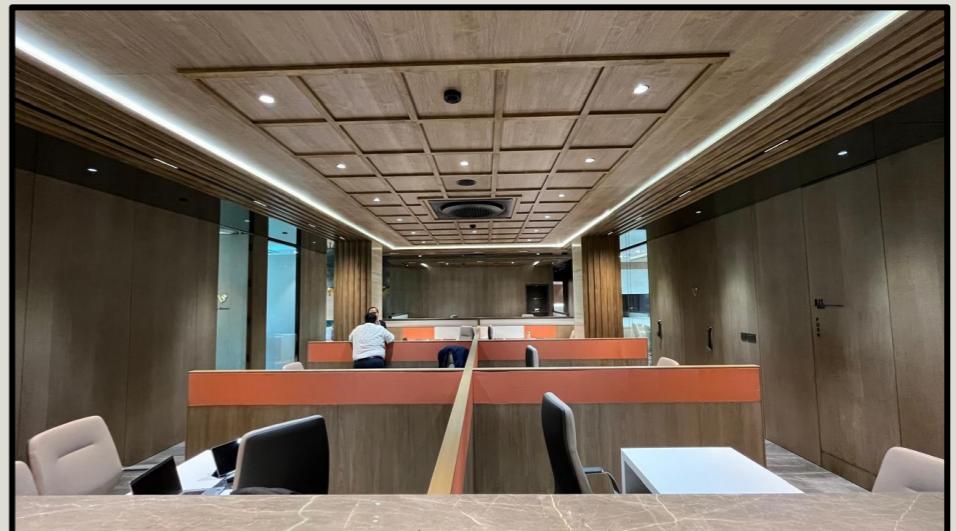

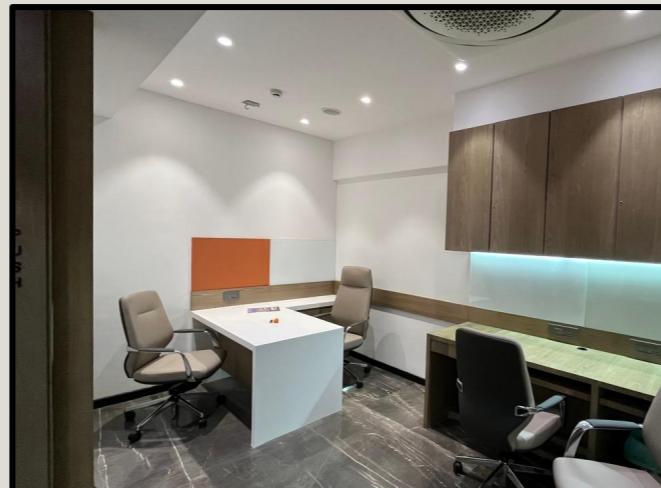

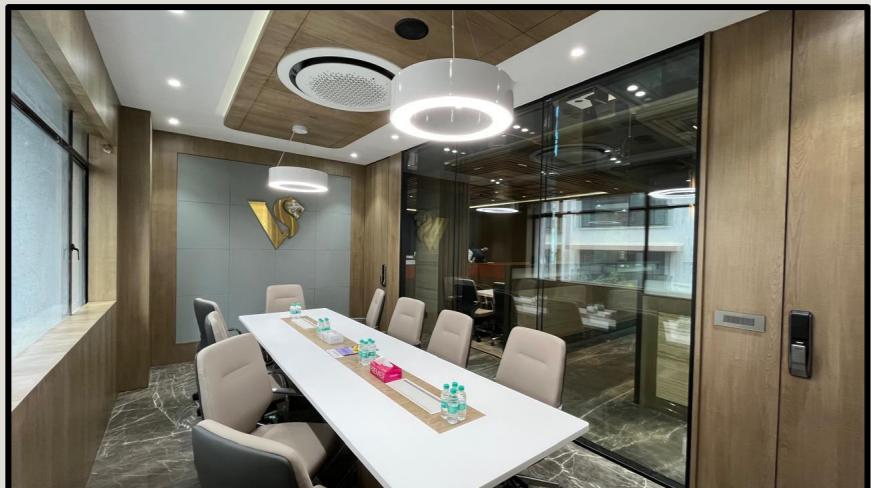

01

OFFICE - 3500 Sq. ft.

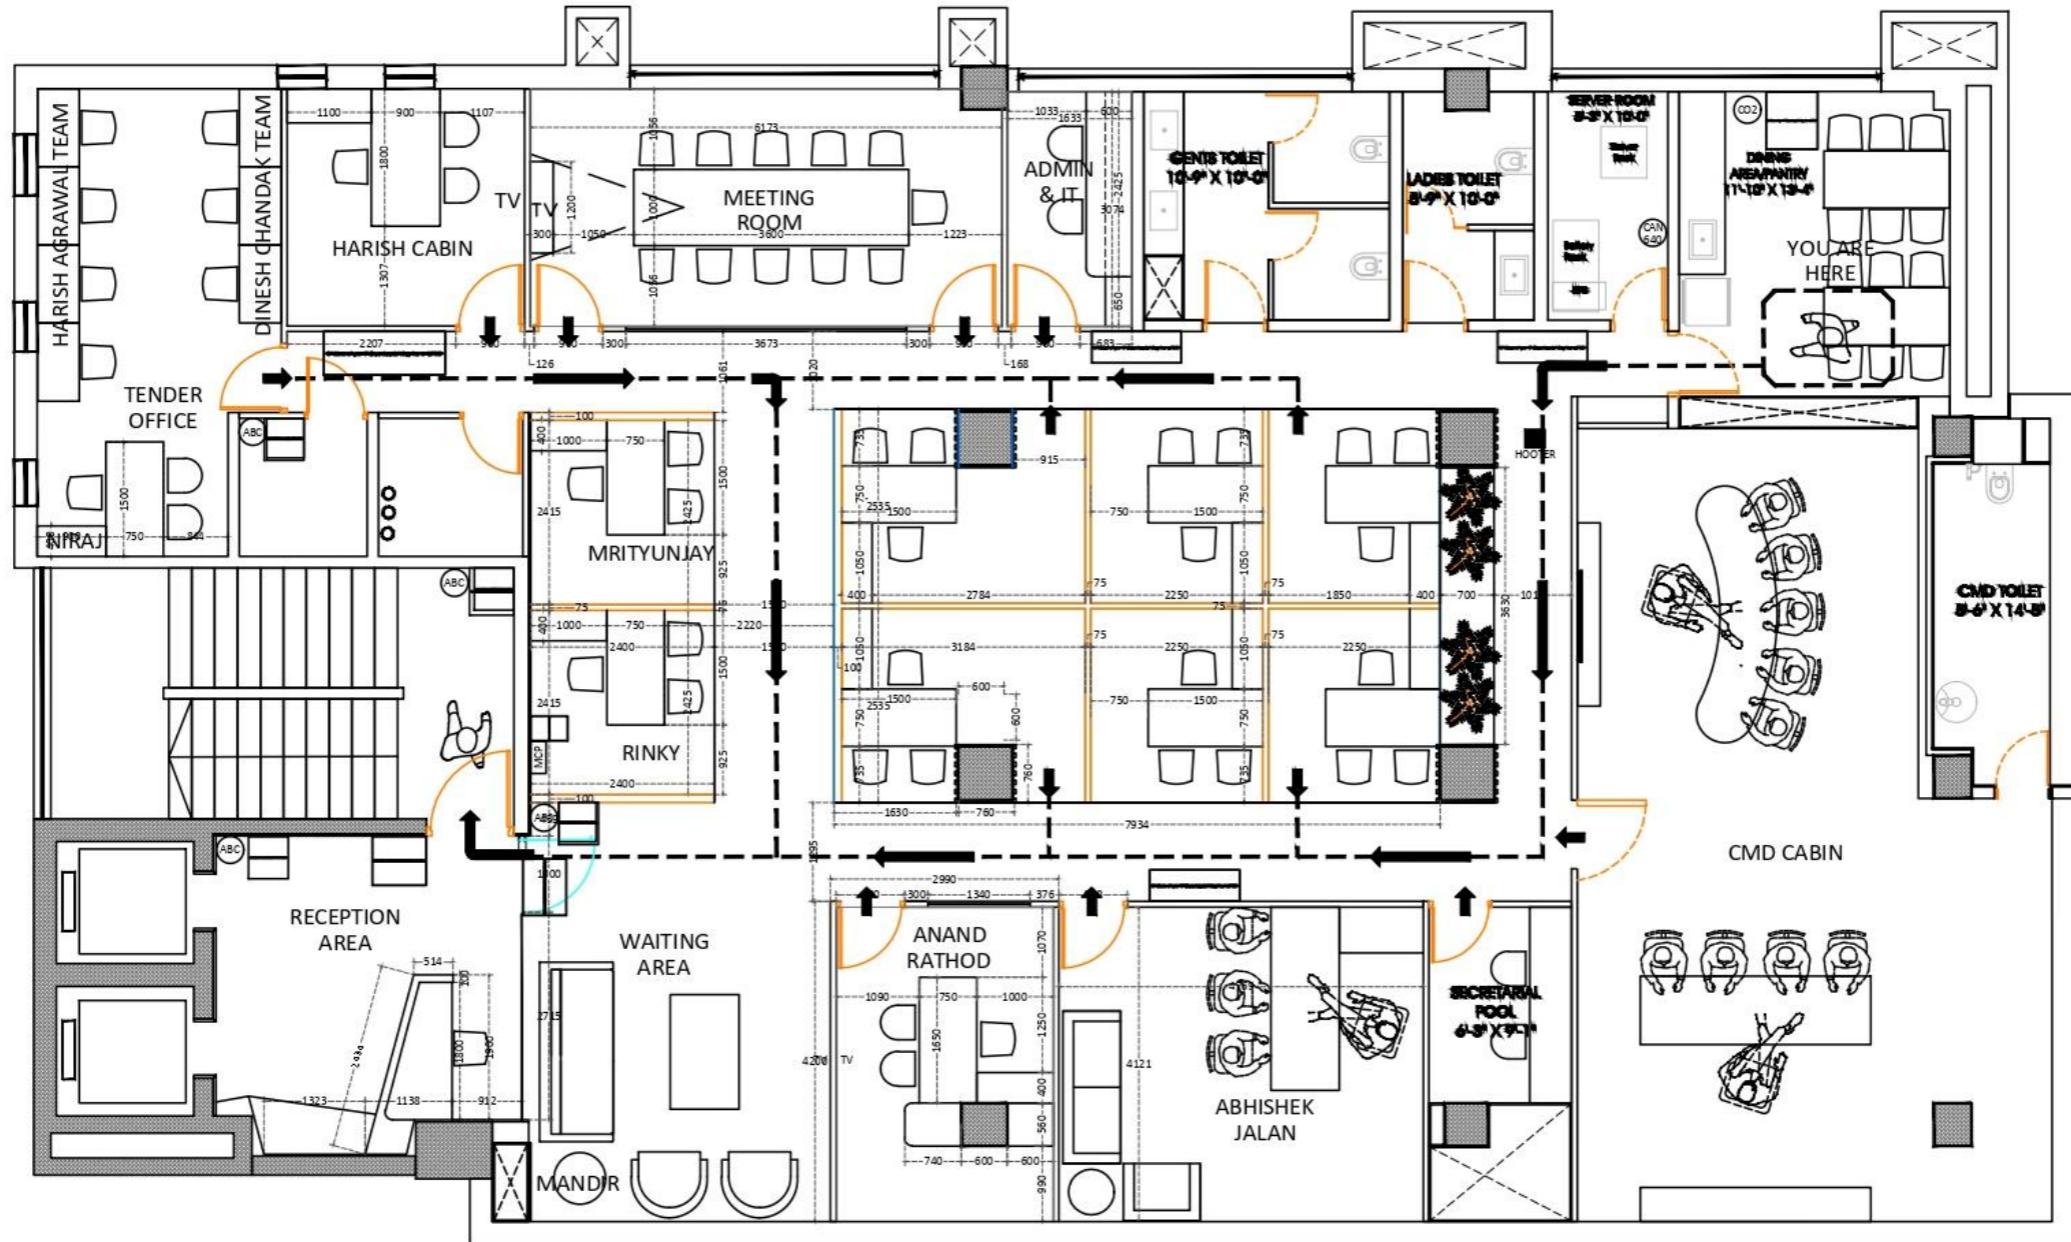

- This project is a prime example of contemporary office design, seamlessly integrating functionality with modern aesthetics to create a dynamic and inspiring workspace.
- The reception area, with its sleek curved marble desk and soft ambient lighting, sets an inviting tone for visitors while exuding professionalism. Warm wood finishes and polished marble flooring lend a sense of sophistication, while decorative accents and modern lighting fixtures enhance the overall visual appeal. The ceiling features intricate wood paneling with recessed lighting, adding depth, warmth, and a modern touch to the overall design.

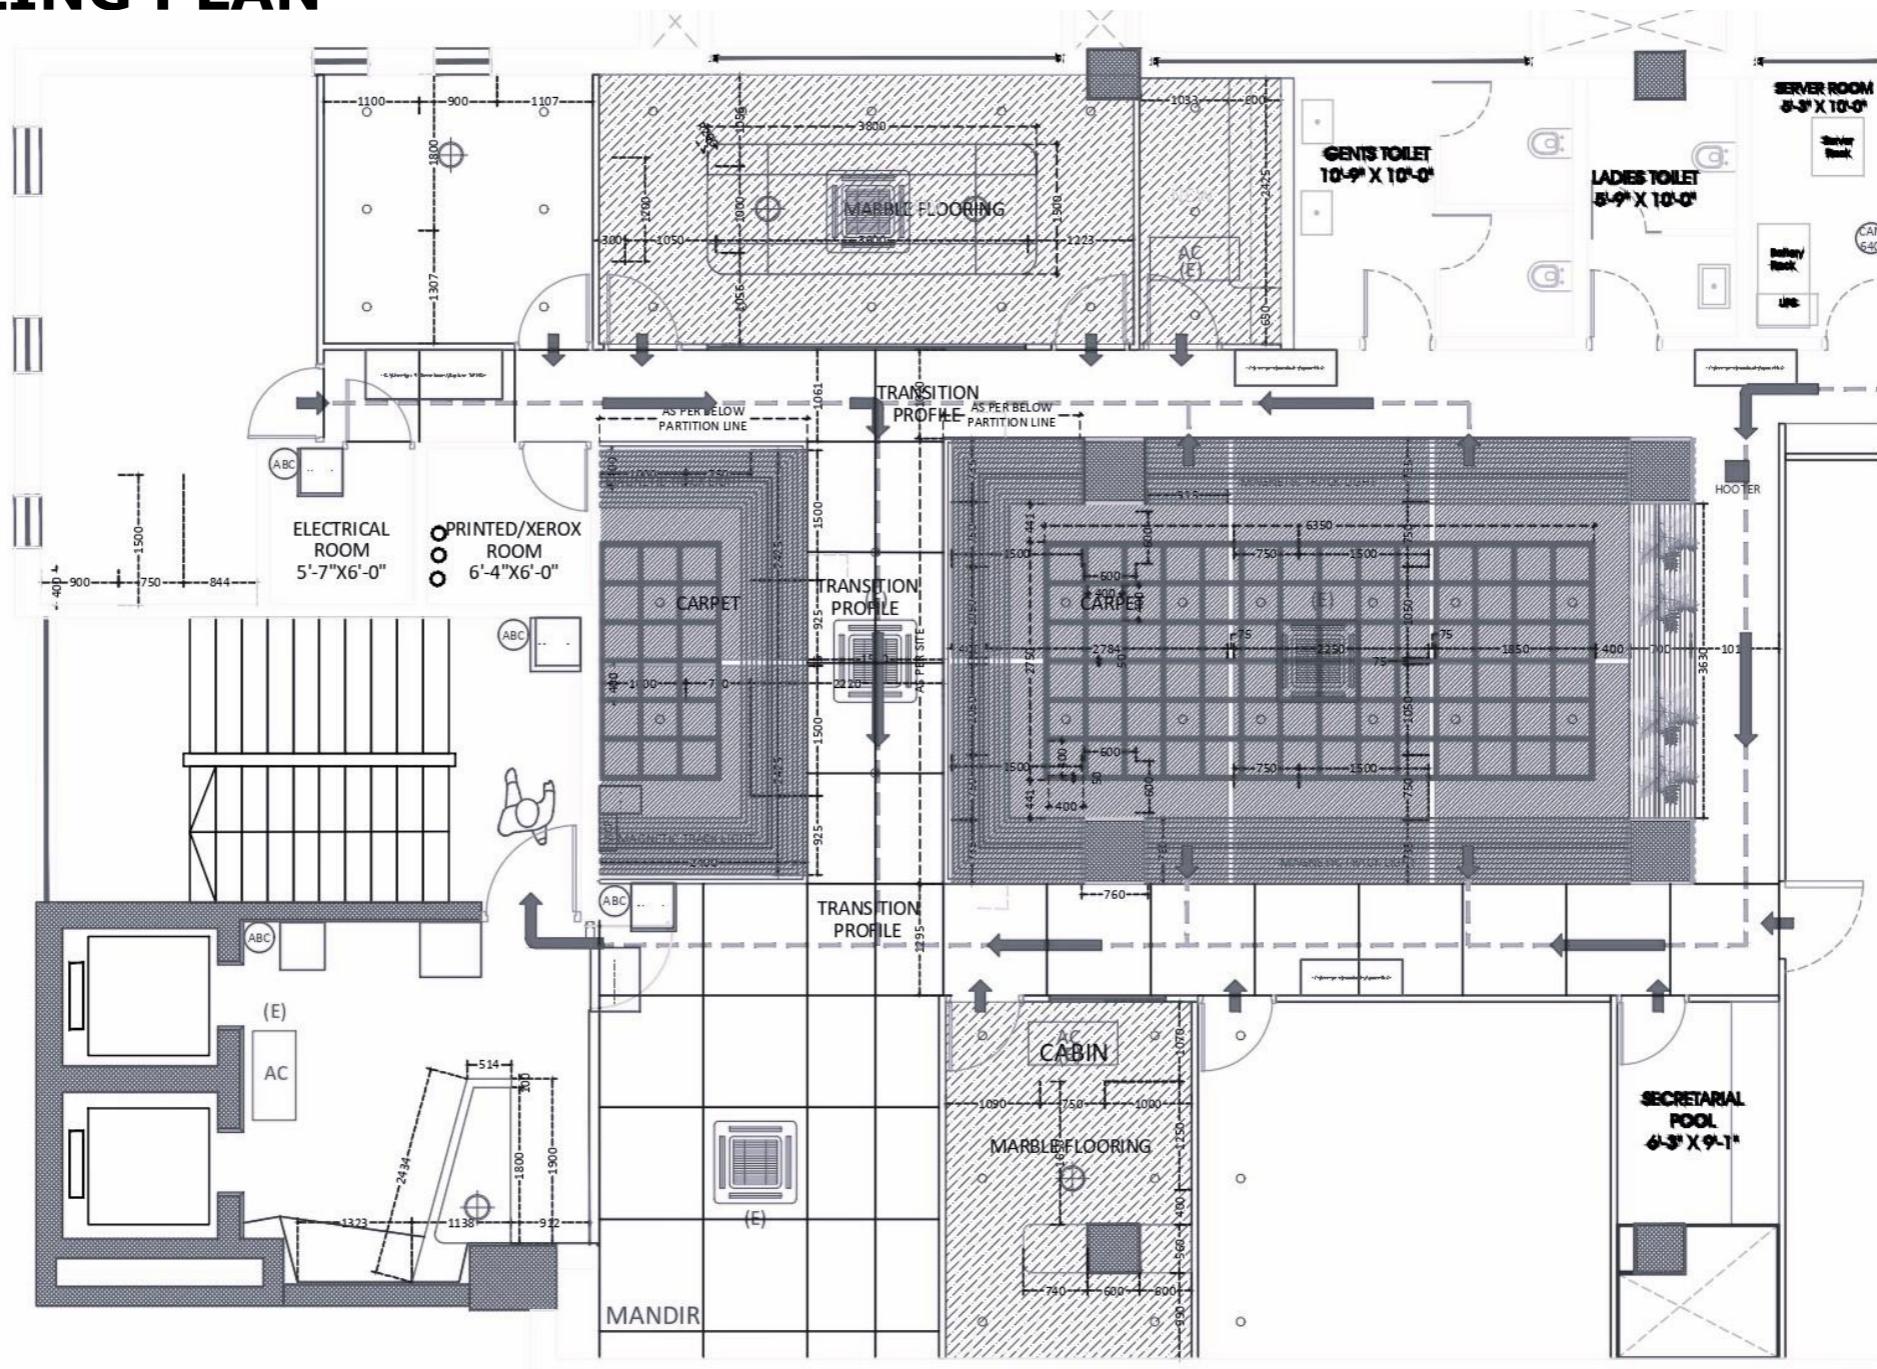

- The workstations are thoughtfully designed with ergonomic seating, partitioned desks, and vibrant orange accent panels that add energy to the space. A glass-enclosed meeting room with a central white table and integrated lighting provides a sophisticated environment for collaboration and discussions.
- By leveraging premium materials and a well-planned layout, this project successfully balances practicality and style. The clearly defined zones for focused work, collaboration, and private meetings ensure the office meets the needs of a fast-paced professional environment while creating a workspace that feels welcoming, functional, and timeless.

02

COMMERCIAL INTERIORS

- Step inside this travel office, and you'll be transported to a world of adventure. One wall features a large, hand-drawn map encompassing the entire world that can be potential dream destinations of clients.
- A vintage globe, and many other artifacts from different countries rests on a stand, perfect for daydreaming about future adventures. In the corner, a comfy armchair beckons for brainstorming sessions or a quiet moment to read.
- A large, custom-designed desk made of high-quality wood sits in the of the room, exuding authority and sophistication.

03

OPEN CONCEPT KITCHEN

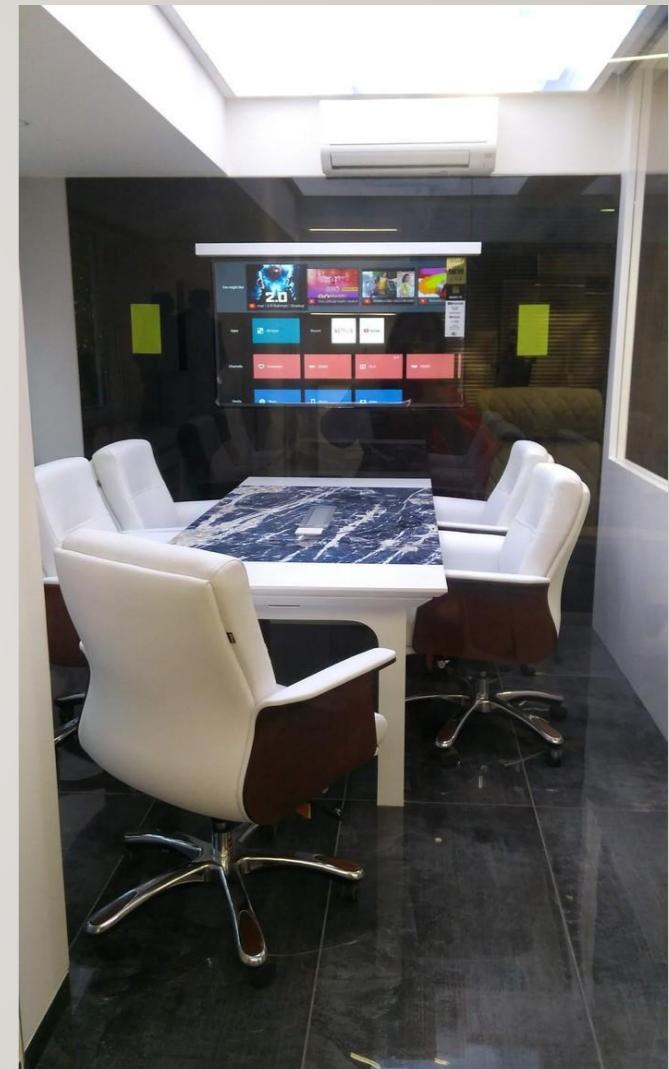

- The open concept kitchen restaurant has become a cornerstone of modern dining, blurring the lines between front and back of house to create a truly immersive experience.
- Traditional walls separating kitchen from dining area are replaced with strategic design elements. Half-walls with integrated shelving or glass partitions allow for visual connection while maintaining some separation for noise control and kitchen traffic flow.
- A vertical garden flanks one side of the restaurant wall, adding a refreshing pop of color and life. This integration of greenery softens the industrial feel of the brick and creates a connection with nature.

04

COMMERCIAL OFFICE

- White walls and light wood furniture contribute to a feeling of spaciousness. The large windows bathe the room in natural light, reducing the need for artificial lighting during the day and promoting a sense of openness.
- A small potted plant adds a touch of life and color to the space. Plants can help purify the air and may improve cognitive function of meeting participants.
- The white furniture contrasts with the dark flooring giving it a rich look.
- A large, ornately carved desk with faux leather on top covered with glass takes center stage. This grand desk evokes a sense of power and tradition, perfect for an executive office.

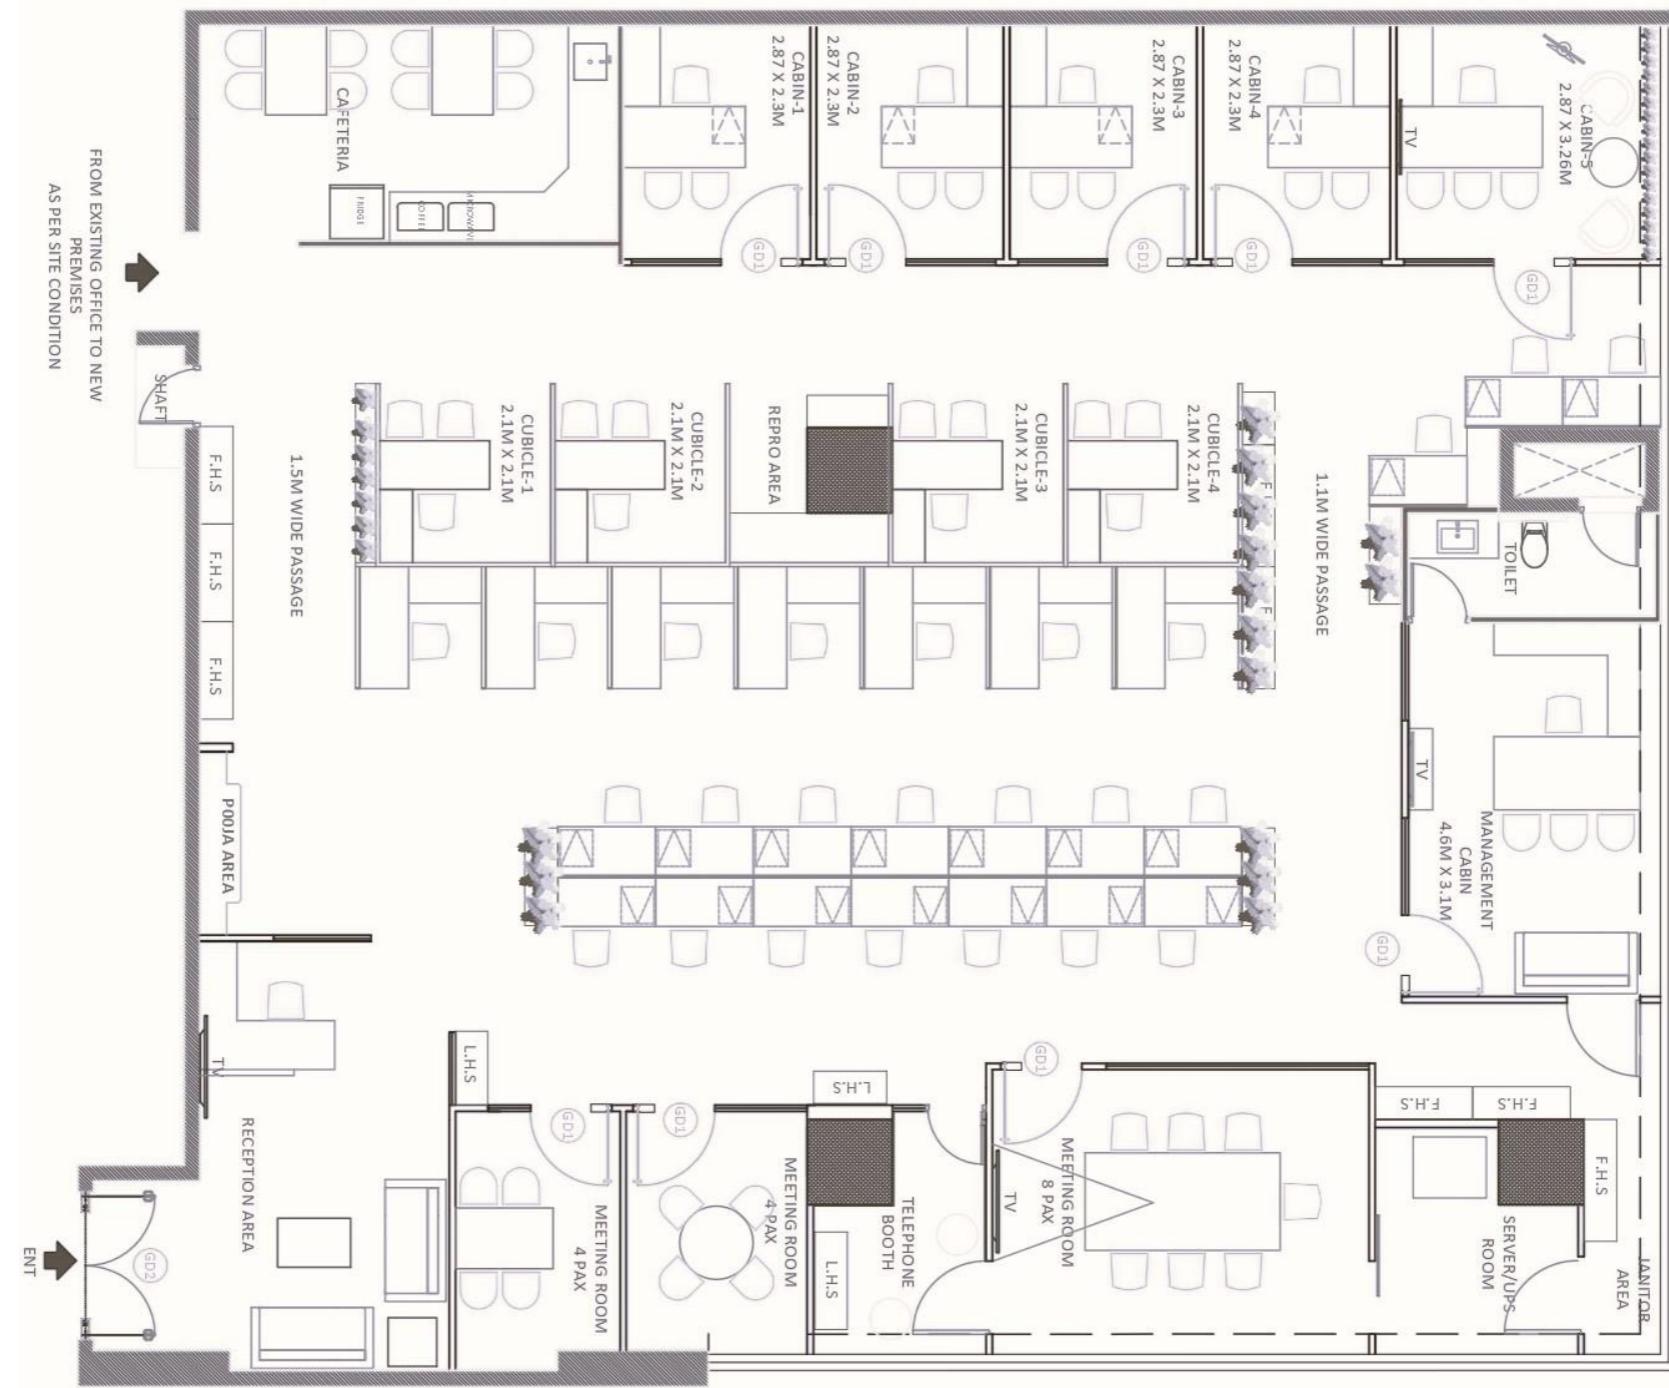

05

COMMERCIAL OFFICE - 3250 Sq. Ft.

- This office is a carefully curated space designed to encourage collaboration, productivity, and a welcoming atmosphere. The open-plan workstation layout features clean lines, sleek white desks, and ergonomic seating, complemented by a gray and orange color palette that adds vibrancy and energy to the environment. Suspended acoustic panels in geometric shapes not only enhance aesthetics but also reduce noise, creating a comfortable workspace for teams.
- The reception and lounge areas are warm and inviting, featuring sleek furniture, subtle branding, and greenery that adds a touch of freshness. A dedicated prayer alcove with intricate wall designs provides a serene space, reflecting a balance of work and mindfulness. Overall, this office exemplifies modern design principles, delivering an engaging and efficient workspace tailored for dynamic professionals.

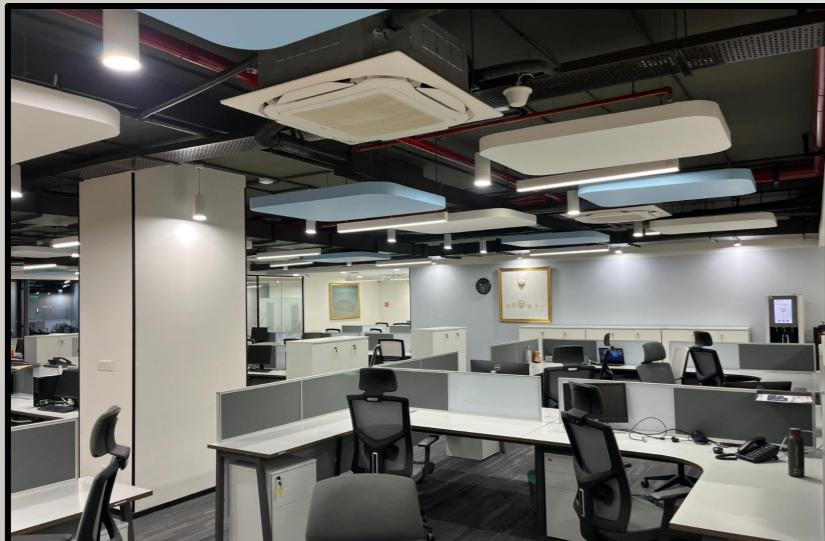

OFFICE - PLAN

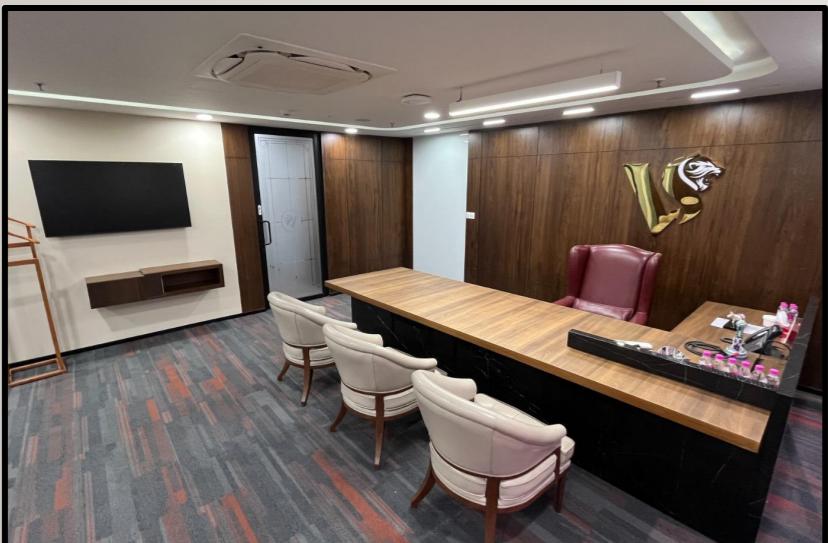

06

COMMERCIAL OFFICE - 6000 Sq. Ft.

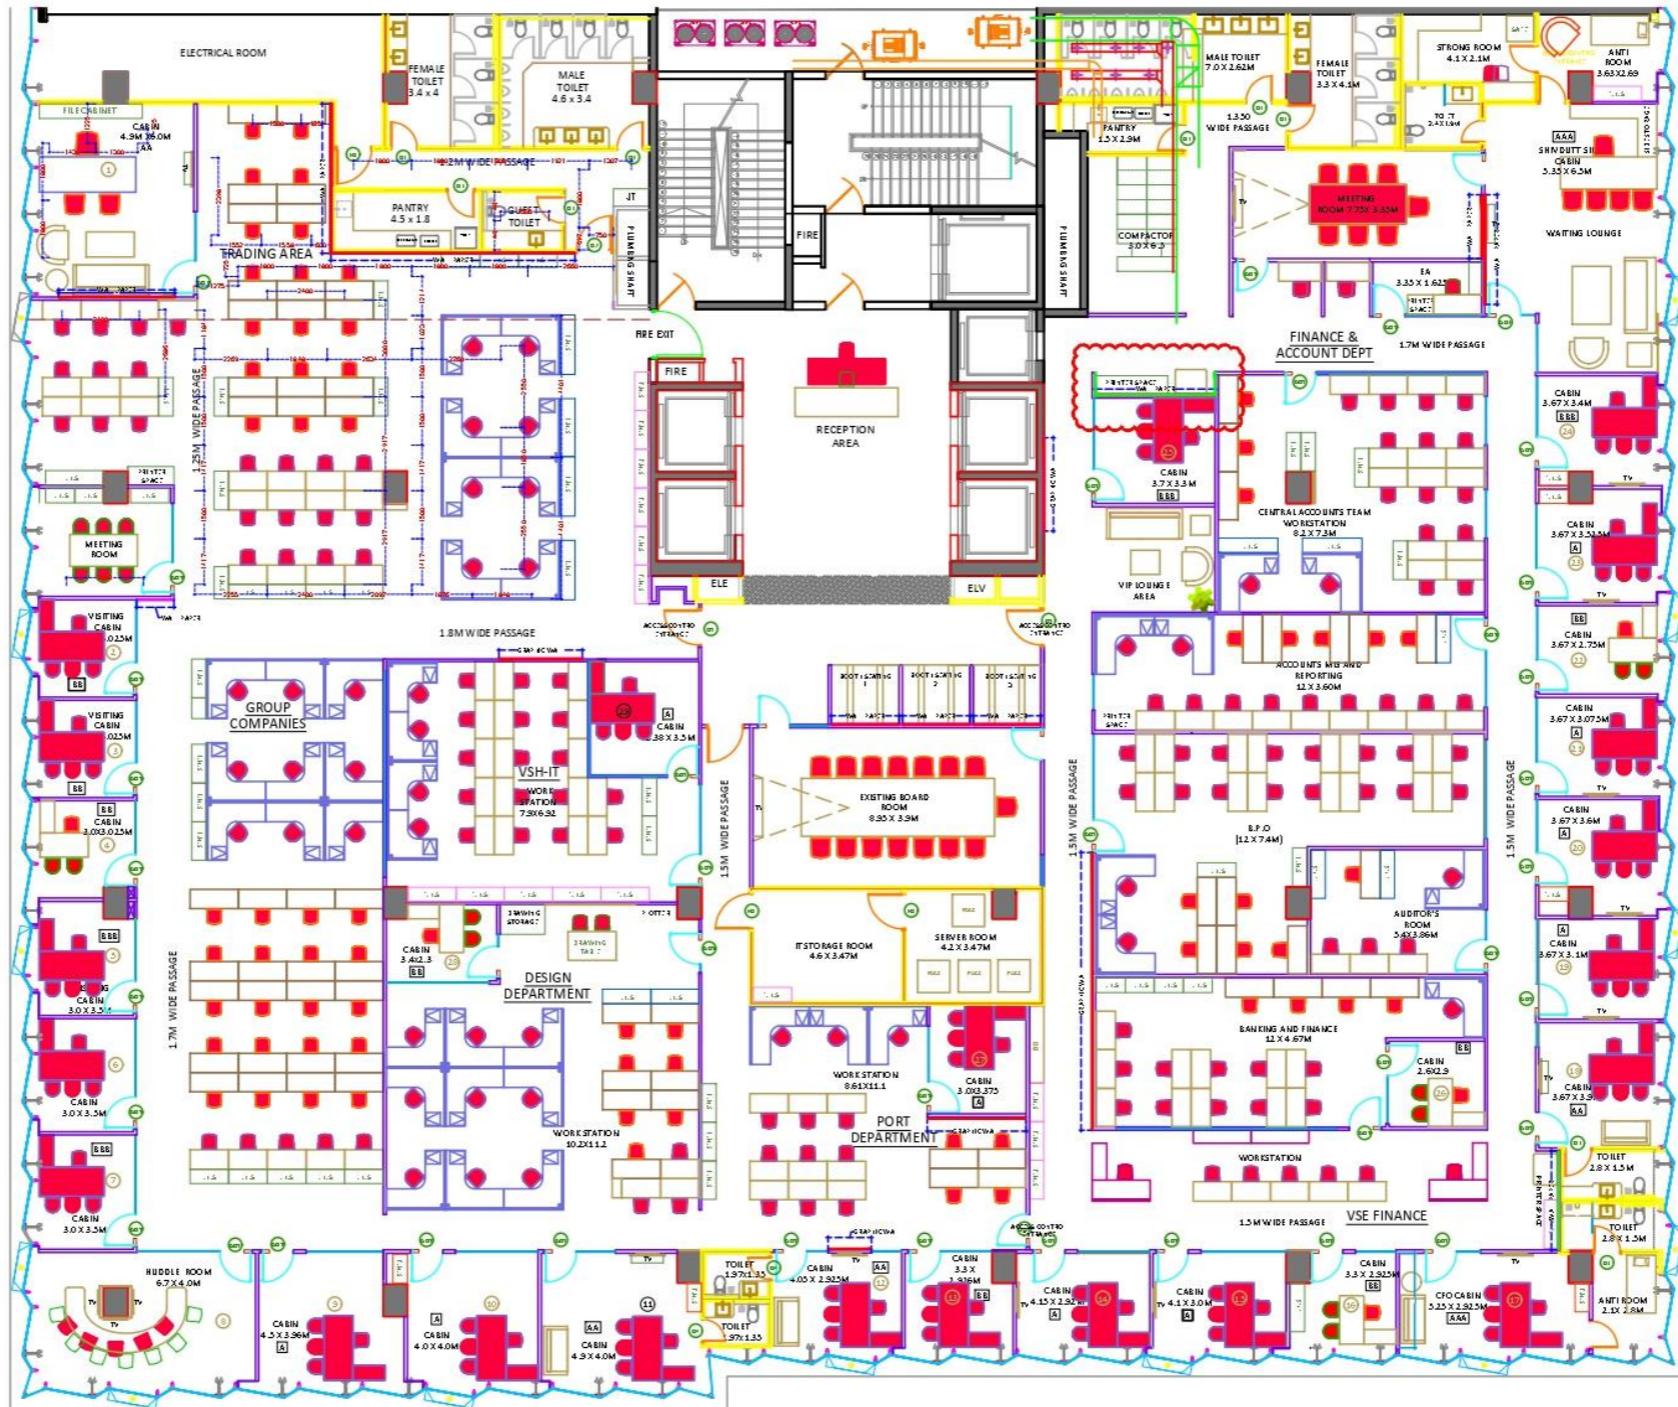

- This office design is a harmonious blend of functionality and sophistication, catering to the needs of a modern corporate environment. The reception area exudes elegance with its textured walls, premium marble flooring, and a custom-made reception desk that provides a striking first impression. The corporate branding is seamlessly integrated into the design, emphasizing professionalism and identity
- Open workstations are designed with ample storage and ergonomic furniture, ensuring employee productivity. Cozy breakout pods in calming tones offer spaces for informal discussions, while lounge areas with plush seating foster relaxation and collaboration. This design thoughtfully blends aesthetics with practicality, creating a workspace that inspires and performs.

- The executive cabins and meeting rooms are designed to balance privacy and collaboration. Rich wooden paneling, ergonomic seating, and ambient lighting enhance the sense of comfort and luxury. The boardroom features a grand conference table paired with sleek leather chairs, providing a perfect setting for important discussions. Soft curves in ceiling details add an aesthetic touch to the overall space.
- Premium finishes, including marble flooring, textured walls, and rich wood accents, are paired with soft furnishings to evoke a sense of luxury and warmth. Strategic use of natural light and well-placed artificial lighting enhances the overall ambiance, making the space feel open and inviting.
